The Chairman. Of course there are so many Spanish-speaking people down in Texas.

Mr. Rankin. In the area.

The Chairman. That she might have gotten it from someone else.

Mr. Rankin. Then there is a great range of material in regard to the wounds, and the autopsy and this point of exit or entrance of the bullet in the front of the neck, and that all has to be developed much more than we have at the present time.

We have an explanation there in the autopsy that probably a fragment came out the front of the neck, but with the elevation the shot must have come from, and the angle, it seems quite apparent now, since we have the picture of where the bullet entered in the back, that the bullet entered below the shoulder blade to the right of the backbone, which is below the place where the picture shows the bullet came out in the neckband of the shirt in front, and the bullet, according to the autopsy didn't strike any bone at all, that particular bullet, and go through.

So that how it could turn and --

Rep. Boggs. I thought I read that bullet just went in a finger's length.

Mr. Rankin. That is what they first said. They reached in and they could feel where it came, it didn't go any further than that, about part of the finger or something, part of the autopsy, and then they proceeded to reconstruct where they thought
