## Description of the Call

**Date:** 07/15/96

**Subject:** Riebe Called ARRB

### **Summary of the Call:**

After receiving numerous recorded telephone messages, and after receiving ARRB mail, Floyd A. Riebe called ARRB Monday afternoon, July 15, about 3:30 P.M. in response to ARRB requests to contact us.

He was asked if he stood by his 1989 interview with David Lifton as being an honest interview, and said yes. He was asked if he took pictures at President Kennedy's autopsy, and he said yes. He was asked if he was still of the opinion that the photographs of the back of President Kennedy's head failed to show damage that he saw on the head, and he said yes, that he thought the photo was inaccurate.

Mr. Gunn asked him whether he was willing to say this under oath, and he said yes. The final arrangements as to when and where his deposition will be conducted were left open; Mr. Gunn agreed to call him again on Friday, July 19, 1996 to discuss further arrangements for taking a deposition. END

## The Players

Who called whom?      Jeremy Gunn and Douglas Horne called Floyd A. Riebe of Witnesses/Consultants

## Description of the Call

Date:                      07/19/96

Subject:                 ARRB Called Floyd Riebe

### Summary of the Call:

Jeremy Gunn and Doug Horne called Floyd Riebe and discussed the possibility of a deposition with him.

He recalled that he shot the following film during the autopsy of President Kennedy:

- 1 roll of 35 mm Ektachrome (20 exposures)
- 2 press packs (12 shots each) of B & W film
- 3 or 4 film holders of color (i.e., 6-8 color transparencies)

He also recalled, when asked about when he signed CAPT Stover's film receipt, that it might have been the next day after the autopsy, but was not on the night of the autopsy.

When asked, Riebe did not remember taking pictures of probes in the body at the autopsy.

He reaffirmed that he saw the back of President Kennedy's head missing at the autopsy.

At one point he indicated that he might have shot some 120 film at the autopsy, but did not recall any film being seized and exposed to light.

He recalled that normally a small tag with the autopsy number on it would be inserted into the duplex film holders at an autopsy, and that in this way the autopsy number would appear on the films when developed, but that there was no opportunity to do that on the night of JFK's autopsy.

Mr. Riebe indicated he was amenable to being deposed, and Mr. Gunn said that we may take his deposition in August or September; Mr. Riebe did not have a preference as to when. It was tentatively agreed that his deposition would be in Washington. END
