(U) Letter from Denver, 3/14/46-- This surv has for some time been operating unsatisfactorily. In view of the type of installation involved it has <sup>not</sup> been possible to effect the nec. repairs according to any schedule since the opportunity must be taken when it arises to gain access to the premises for purpose of determining the source of trouble. SA's assigned to this office have inspected equipment and reached conclusion that there is a defect in cord leading from telephone set to wall box. Nec. replacement cord has been ordered from Bur and upon its receipt an early opportunity will be taken to replace the present defective cord.

*cc to Mr. Murphy*
